

**Approach to Redistributing Round 2 Implementation
Grant Funds Should Projects Become Unviable
(Approved by Workgroup on 11/9/07)**

Step 1: Up to \$750K will be reserved for Project Administration.

Step 2: Any remaining funds will be redistributed amongst projects in the same program category up to the original request; reallocation will be proportionate to the original recommended funding amount and will not exceed the original grant funding requested on a project-by-project basis, excluding the funds reserved in Step 1 for contract administration (up to 3% of the total grant request).
