- **Objective A: Encourage the development of integrated solutions to address water management issues and conflicts.**
- **Objective B: Maximize stakeholder/community involvement and stewardship of water resources, emphasizing education and outreach.**
- **Objective C: Effectively obtain, manage, and assess water resource data and information.**
- **Objective D: Further the scientific and technical foundation of water management.**
- **Objective E: Develop and maintain a diverse mix of water resources, encouraging their efficient use and development of local water supplies.**
- **Objective F: Construct, operate, and maintain a reliable water management infrastructure system.**
- **Objective G: Enhance natural hydrologic processes to reduce the effects of hydromodification and encourage integrated flood management.**
- **Objective H: Effectively reduce sources of pollutants and environmental stressors to protect and enhance human health, safety, and the environment.**
- **Objective I: Protect, restore, and maintain habitat and open space.**
- **Objective J: Optimize water-based recreational opportunities.**
- **Objective K: Effectively address climate change through greenhouse gas reduction, adaptation, or mitigation in water resource management.**
