1. ½ points may be applied if the project indirectly meets this criterion (see Table 9-3 example for 2007 Objectives).

2. Prior to each round of funding, percentages will be applied as appropriate to determine applicable weighting of each criterion in accordance with direction provided by the RAC and the RWMG. Please note that percentages may be set at 0 for any given criteria, indicating that any of these criteria may be removed from consideration for a specific funding opportunity. Conversely, the "Other" category provided in this table indicates that any number of new criteria may be added by the RAC and the RWMG to reflect new or modified funding priorities.

3. Note that to be considered for IRWM funding, Objectives A and B and one other must be addressed. RAC may be asked to prioritize the IRWM Plan Objectives prior to each grant cycle.

4. Watershed services are defined in Section 9.2.5

5. IRWM Issues are identified in Table 1-2 of the IRWM Plan Update
