

Case Study #3

Water Supply & Wastewater

Neal Brown
Padre Dam Municipal Water District

Padre Dam MWD

Working Associations

- Cities
- Communities
- Planning Groups
- Fire Departments
- Schools
- Other agencies
- Customers

Key Concept

- Relationships can significantly influence how management decisions are made for both the utility and the land use agency.

Water Planning

- Past History – Very Limited Influence
- Current Long Term Supply Challenges
- Water Supply Assessments
 - General Plan Update
- Water Efficient Landscape Ordinance
- Drought Management Team

Positive Practices

- Coordination Meetings
 - Monthly Utility Coordination
 - Pavement Schedules
 - Quarterly Engineering Coordination
 - Project Specific Coordination
 - Developments
 - CalTrans
- Staff Support at City Council and County Public Meetings

Positive Practices

- Negotiations with Fire Departments
 - Intercede for Developers
 - Wildland Fires – Flow Desires
 - Flow Limitations
- Coordination with School Districts
 - DSA Approval
 - Recycled Water
