

**Revised Scoring Criteria for 2019 IRWM Plan**

*DRAFT*

January 26, 2018

**Table 9-1: Scoring Criteria for IRWM Grant Opportunities**

Criterion	Scoring Procedure	Points Assigned	Percent of Total Score <sup>2</sup>
Addresses Multiple Objectives <sup>1</sup>	Score is based on # of objectives addressed <sup>2</sup>	6+ objectives = 4 pts 5 objectives = 3 pts 4 objectives = 2 pts 3 objectives = 1 pt	TBD
Spans Multiple Watersheds	Score is based on the level of integration between watersheds	Multiple Watersheds = 4 pts Integration within a single Watershed = 2 pts Only site-specific = 0 pts	TBD
Addresses Multiple Beneficial Uses (BUs)	Score is based on # of beneficial uses addressed	4+ BUs = 4 pts 3 BUs = 3 pts 2 BUs = 2 pts 1 BUs = 1 pt	TBD
<del>Addresses Multiple Watershed Services within the Hydrologic Cycle</del>	<del>Score is based on the number of watershed services<sup>4</sup> within the hydrologic cycle</del>	<del>Includes 2+ watershed services = 2 pts Includes 1-2 watershed services = 1 pts Includes no watershed functions = 0 pts</del>	<del>TBD</del>
<u>Sustainable Water Development:</u> Creates New Applied Water or Offsets Potable Demand <sup>3</sup>	Score is based on <u>yield of water created or offset</u>	<u>Creates new source of reliable, local, drought-proof supply or reduces demands – consistent yield in average and dry years = 4 pt</u> <u>Creates new water or reduces demands – average conditions only = 2 pts</u> <del>No interconnections/ redundancy in supply but no additional yield created = 1 pt</del>	TBD
<del>Linked to Other Water Management Projects</del>	<del>Score is based on Yes/No response</del>	<del>Yes = 4 pt No = 0 pts</del>	<del>TBD</del>
Involves More than One Entity <sup>4</sup>	Score is based on <del>Yes/No response</del> <u>degree of partnership</u>	<u>2 project partners working jointly on a task, at least 1 not previously awarded IRWM funding = 4 pts</u> <u>2 project partners working jointly on a task = 2 pts</u> <u>2 project partners not engaged in same activity; or multiple financial sponsors = 1 pt</u>	TBD
<del>Implements IRWM Plan Recommendation or Addresses an IRWM Issue<sup>5</sup>; IRWM Workgroup Recommendation, or a Recommendation in an Adopted Water Management Plan</del>	<del>Score is based on the kind of planning document that suggests implementing benefits or components of the project</del>	<del>IRWM Plan Recommendation or Issue = 4 pts Workgroup Recommendation = 2 pts Other Adopted Water Management Plan Recommendation = 1 pt</del>	<del>TBD</del>

Criterion	Scoring Procedure	Points Assigned	Percent of Total Score <sup>2</sup>
<u>Invest in Disadvantaged / Environmental Justice Communities and Systems</u>	Score is based on the degree of benefit (direct vs. indirect)	<u>Directly invests in DAC-EDA-URC-EJ water systems, consolidation, OR training = 4 pts</u> <u>Other direct benefits that improve overall conditions in DACs (e.g. habitat improvement) = 4<sub>2</sub> pts</u> Indirect benefits = 1 pt	TBD
<u>Resiliency to Climate Change</u>	<u>Score is based on extent of climate change adaptation or mitigation activity (Climate Change Conceptual Model<sup>5</sup>)</u>	<u>Reduces very high or high priority vulnerability to climate change<sup>6</sup> = 4 pts</u> <u>Reduces medium, low, or very low priority vulnerability to climate change<sup>6</sup> = 3 pts</u> <u>Improves knowledge and capacity AND implements climate change mitigation = 2 pts</u> <u>Improves knowledge and capacity OR implements climate change mitigation = 1 pt</u>	TBD
<u>Stormwater as a Resource</u>	<u>Score is based on benefit provided</u>	<u>Utilizes stormwater as a resource (e.g., environmental, source water replenishment) = 4 pts</u> <u>Implements onsite capture and reuse = 2 pts</u>	TBD
<u>Optimizes Regional Infrastructure</u>	<u>Score is based on the degree of benefit (regional vs local)</u>	<u>Optimizes regional infrastructure (improved use of existing infrastructure)<sup>7</sup> = 4 pts</u> <u>Optimizes local infrastructure (improved use of existing infrastructure) = 2 pts</u>	TBD
Other <sup>8</sup>	TBD	TBD	TBD

1. ½ points may be applied if the project indirectly meets this criterion (see Table 9-3 example for 2007 Objectives).
2. Note that to be considered for IRWM funding, Objectives A and B and one other must be addressed. RAC may be asked to prioritize the IRWM Plan Objectives prior to each grant cycle.
3. Prior to each round of funding, percentages will be applied as appropriate to determine applicable weighting of each criterion in accordance with direction provided by the RAC and the RWMG. Please note that percentages may be set at 0 for any given criteria, indicating that any of these criteria may be removed from consideration for a specific funding opportunity. Conversely, the “Other” category provided in this table indicates that any number of new criteria may be added by the RAC and the RWMG to reflect new or modified funding priorities.
4. Watershed services are defined in Section 9.2.5
4. Partnership under this criterion is financial or physical support (active partnership). Passive support, such as letters of support, are not considered partnerships.
5. IRWM Issues are identified in Table 1-2 of the IRWM Plan Update
5. Climate Change Conceptual Model is included in Section 2.7.
6. Refer to Table 7-16 for prioritized climate change vulnerabilities.
7. For the purposes of project scoring, “regional infrastructure” is defined as infrastructure serving more than one agency of the same type (e.g., serves two water districts) and “local infrastructure” is defined as infrastructure serving a single agency.
8. “Other” scoring shall consider contribution of project to reducing greenhouse gas emissions, how the project will reduce dependence on Delta Supply, and how the project is related to resource management strategies (see Chapter 8).
