

Current IRWM Plan Schedule

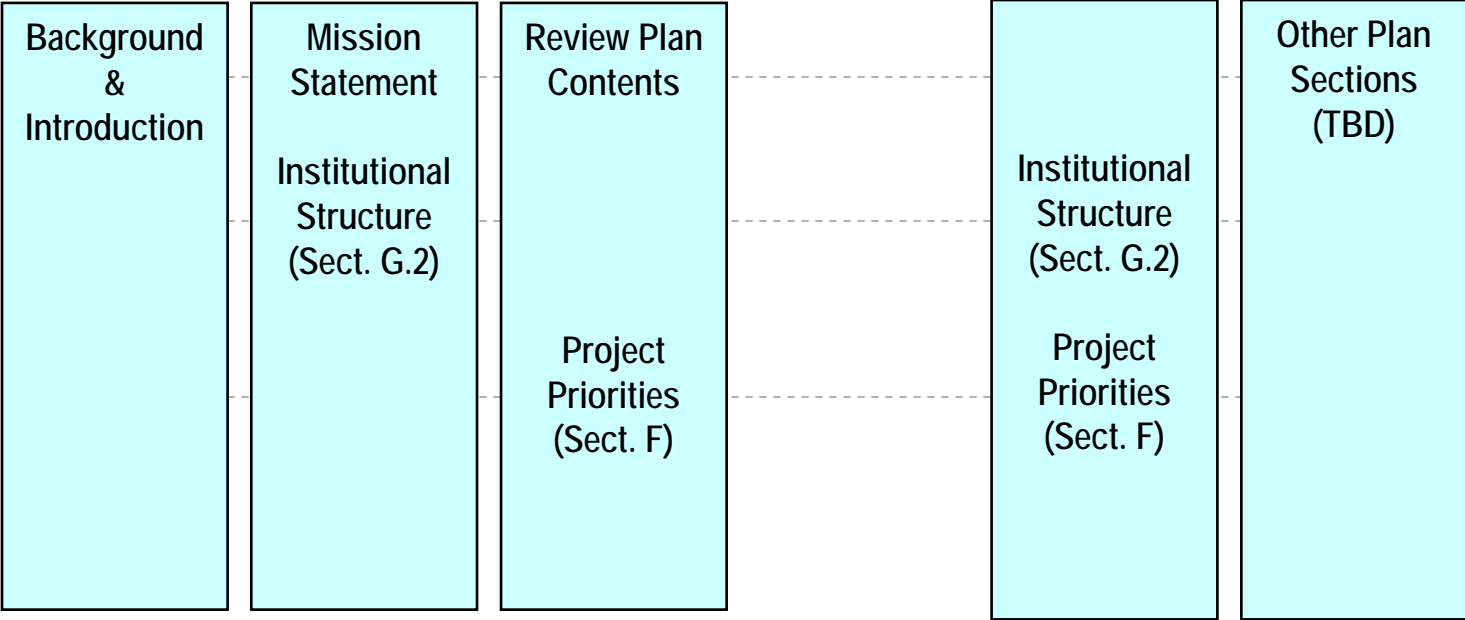

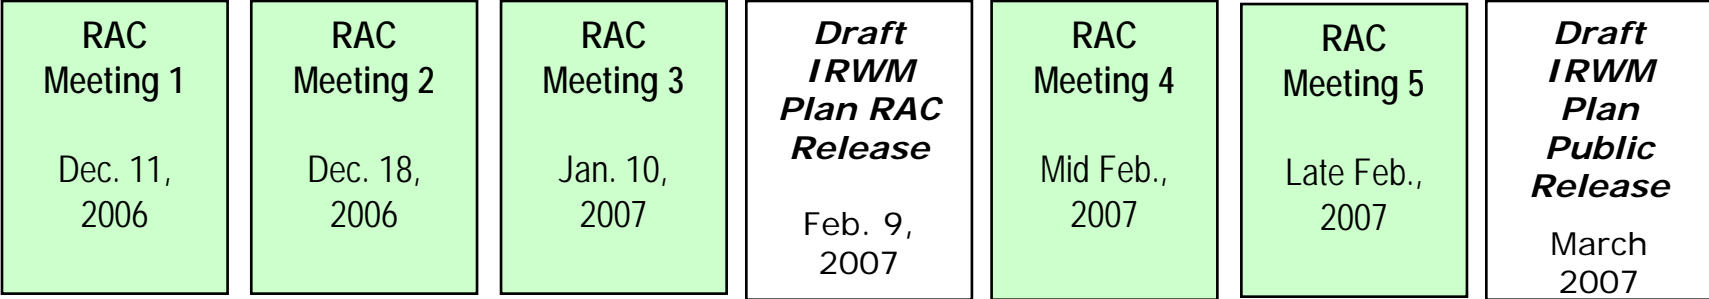

Proposed MOU Modifications

As part of the public outreach and stakeholder involvement effort, the PARTIES have formed a Regional Advisory Committee (RAC). The RAC is comprised of representatives from the water management areas of water supply, water quality and natural resources/watersheds and representatives of business, academia and other interested members of the public. The purpose of the RAC is to make recommendations to the PARTIES on key issues related to IRWM plan preparation and Proposition 50 Chapter 8 grant application. The PARTIES are committed to a cooperative relationship with the RAC and will incorporate the RAC's consensus recommendations in draft documents prepared by the PARTIES. The RAC shall be considered the official project advisory committee to the PARTIES governing bodies. The PARTIES governing bodies will give primary consideration to the recommendations of the RAC as part of any decision related to the following:

- a. Adoption of the Final IRWM Plan for the San Diego Region.
- b. Criteria for prioritizing projects for funding under Proposition 50 Chapter 8 funding
- c. Approval and submission of Proposition 50, Chapter 8, Cycle 2 Grant Application.
- d. Transition to Long-term Institutional Structure.

Potential Schedule Modifications
