

Pure Water San Diego Program

San Diego Integrated Regional Water Management Program

August 7, 2024 Pure Water Panel

1

SD What is Pure Water San Diego?

Pure Water will:

Provide nearly 1/2 of San Diego's water supply

Provide a reliable, sustainable water supply

Produce safe, high-quality drinking water

Offer a cost-effective investment for San Diego's water needs

2

3

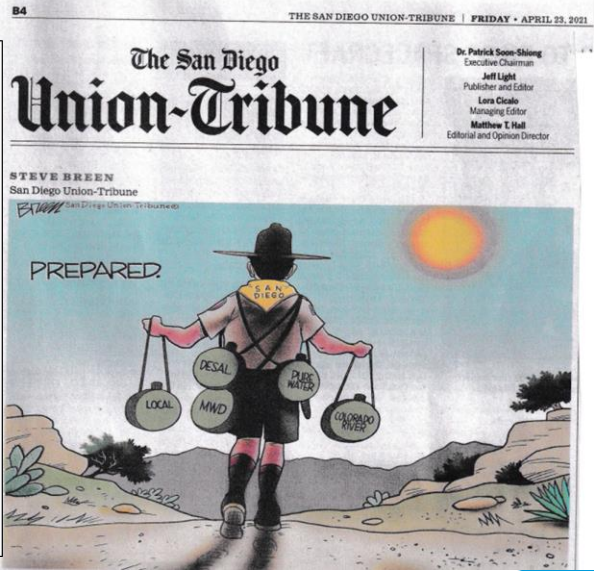

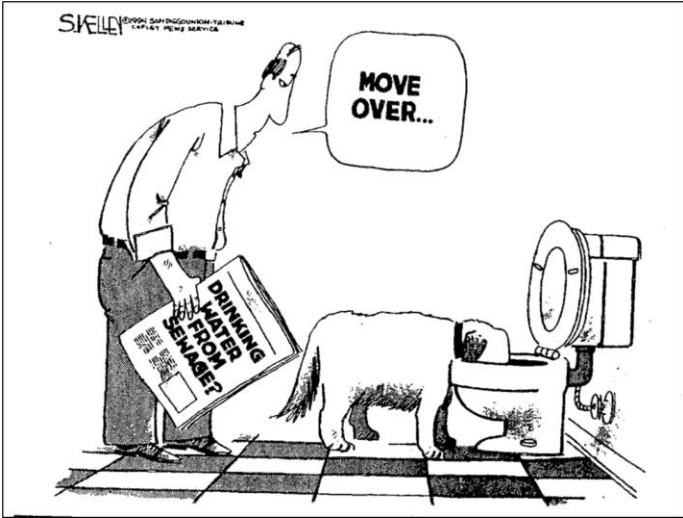

Multi-Faceted Approach

- Conservation
- Desalination
- Groundwater Development
- Recycled Water
- Pure Water Program

SD Phase 1 Projects

A map of San Diego highlighting Phase 1 water infrastructure projects. The projects are marked with icons and labels: Miramar Reservoir, North City Pure Water Pipeline, NCPWF & Pump Station, NCWRP Expansion, MBC Improvements, and Morena Pump Station & Pipelines. A legend on the right side of the map provides details for each project:

- MBC** Metropolitan Biosolids Center
- NCWRP** North City Water Reclamation Plant & Flow Equalization Basin
- NCPWF** North City Pure Water Facility & Pump Station
- NCPWP** North City Pure Water Pipeline, Dechlorination Facility and Subaqueous Pipeline

At the bottom of the legend, there are icons for Pump Station, Water Facility, and Biosolids.
