California Water Plan
2009
Update to San Diego Region
IRWM Plan RAC
June 12, 2007
Framework for Action
Sustainable & Reliable Water in 2030

Vision

2 Initiatives
Ensure Reliable
Water Supplies

3 Foundational
Actions
Ensure Sustainable
Water Uses

Vital Economy
Healthy Environment
High Standard of Living

Implement
Integrated
Regional Water
Management

Improve
Statewide Water
Management
Systems

Use
Water
Efficiently

Protect
Water
Quality

Support
Environmental
Stewardship
Water Plan 2009

California Water Plan Update 2009
Project Organization and Public Process

1. Collaboration
   - Water Plan Steering Committee
   - State Agencies
   - Multi-Disciplinary Project Team

2. DWR & Other State Agencies
   - Regional Leads
     - State staff working with Regional Efforts
     - Regional Reports
   - Work Teams
     - Analytical Tools & Data
     - Communications Planning
     - Environmental Water
     - Facilitation
     - Integrated Flood Management
     - Land & Water Use
     - Resource Management
     - Strategies
     - Water Supply & Balance
     - Water Quality

3. Public
   - Advisory Committee
     - Communities of Interest
     - Statewide Organizations
   - Regional Forum & Workshops
     - Communities of Place
     - Local Agencies & Governments
   - Extended Review Forum
     - Interested Public

4. Statewide Water Analysis Network (SWAN)
   - Scientists & Engineers
     - Information Exchange & Data Integration
     - Climate Change
     - Shared Analytical Tools & Methods

KEY: (1) Collaboration, (2) California Department of Water Resources and Other State Agencies, (3) Public, (4) Statewide Water Analysis Network (SWAN)
1 – Steering Committee

- CALFED Bay-Delta Program
- CA Business Transportation & Housing Agency
- CA Conservation Department
- CA Department of Boating & Waterways
- CA Department of Fish & Game
- CA Governor's Office of Planning & Research
- CA Public Utilities Commission
- CA State Water Resources Control Board
- Native American Heritage Commission
- CA Department of Food & Agriculture
- CA Department of Forestry & Fire Protection
- CA Department of Health Services
- CA Department of Parks & Recreation
- CA Department of Water Resources
- CA Energy Commission
- CA Environmental Protection Agency
- State Lands Commission
Work Teams:
- Water Supply Balance
- Regional Reports
- Data & Analytical Tools
- Information Technology
- Publications
- Land & Water Use
- Water Quality
- Environmental Water
- Integrated Floor Management
- Resource Management Strategies

Regional Leads
- Mr. Chang Lee, clee@water.ca.gov
3- Public (Advisory Committee)

- American Farmland Trust
- Association of California Water Agencies
- CA Association of Resource Conservation District
- CA Building Industry Association
- CA Chamber of Commerce
- CA Council for Environmental & Economic Balance
- CA Council of Environmental Health Directors
- CA Council of Governments
- CA County Planning Commissioners Association
- CA Farm Bureau Federation
- CA Farm Water Coalition
- CA Landscape Contractors Association
- CA Rural Indian Health Board
- CA Sportfishing Protection Alliance
- CA State Association of Counties
- CA Urban Water Agencies
- CA Urban Water Conservation Council
- CA Watershed Network
- Central Valley Project Water Association
- Division of Ratepayer Advocates, California PUC
- Ducks Unlimited
- Environmental Defense
- Environmental Justice Coalition for Water
- Floodplain Management Association
- Friends of the River
- League of California Cities
- League of Women Voters
- Local Government Commission
- Natural Resource Defense Council
- Planning & Conservation League
- Regional Council of Rural Counties
- Sierra Club California
- State Water Contractors
- The Nature Conservancy
- WateReuse Association
3 – Regional Forums & Workshops

2007

- June 4-5  AC Meeting
- June – Aug  Reg. Workshop
- Aug. 16-17  AC Meeting
- September  Regional Forum
- Oct 13-14  Plenary
- Dec 13-14  AC Meeting

- South Coast Regional Meeting in Los Angeles

2008

- Jan – Feb  Reg. Workshops
- March 20-21  AC Meeting
- May  Regional Forum
- June 19-20  Plenary
- Sept 18-19  AC Meeting
- Dec 18-19  AC Meeting

- South Coast Regional Meeting in San Diego
Sampling of questions that should be answered quantitatively by the Water Plan:

- What are the most pressing local, regional, and statewide water management problems now and in the future and what are potential solutions?
- What are estimates of the local, regional, and statewide components of the hydrologic cycle in CA?
- What are the current water management strategies and uses, what are potential future strategies and uses, and how are these estimated for all sectors and all levels?
- How does water quality affect water management in CA and vice versa?
- How does land use affect water management in CA?
- Who should pay for improvements in local, regional and statewide water management?

Goal: Statewide Engagement

California Water Plan Update 2009
Project Organization and Public Process

1. Collaboration
   - Water Plan Steering Committee
     - State Agencies
   - Consultation
     - Federal Agencies
     - Tribal Governments
   - Regional Forum & Workshops
     - Communities of Place
     - Local Agencies & Governments
   - Extended Review Forum
     - Interested Public
   - Plenary
     - Everyone

2. DWR & Other State Agencies
   - Multi-Disciplinary Project Team
     - Work Teams
       - Analytical Tools & Data
       - Communications Planning
       - Environmental Water
       - Facilitation
       - Integrated Flood Management
       - Land & Water Use
       - Resource Management Strategies
       - Water Supply & Balance
       - Water Quality
     - Regional Leads
       - State staff working with Regional Efforts
       - Regional Reports

3. Public
   - Advisory Committee
     - Communities of Interest
     - Statewide Organizations
   - Regional Forum & Workshops
     - Communities of Place
     - Local Agencies & Governments
   - Extended Review Forum
     - Interested Public

4. Statewide Water Analysis Network (SWAN)
   - Scientists & Engineers
     - Information Exchange & Data Integration
     - Climate Change
     - Shared Analytical Tools & Methods

KEY: (1) Collaboration, (2) California Department of Water Resources and Other State Agencies, (3) Public, (4) Statewide Water Analysis Network (SWAN)
